Education

University of Florida | *BS in Computer Science & Disability in Society Minor*   GPA: 3.54 | May 2027
Information Security Certificate
Artificial Intelligence Fundamentals and Applications Certificate

Relevant Courses: Data Structures & Algorithms, Computer Organization, Computational Linear Algebra, Discrete Structures, Ethics, Data and Technology, Calculus III, Professional Communication for Engineers, Programming Fundamentals in Python, Programming Fundamentals in C++

Experience and Involvement

UF Student Infosec Team (UFSIT)   Jan 2025 – Present
NCAE Team Database Lead   *Mar 2025*
- Set up a PostgreSQL server and secured it to only listen to whitelisted IPs and users.
- Maintained uptime of critical services during live attacks, while also hunting for threats and removing backdoors.
- Solved CTFs involving command injection, network steganography, and cryptography.

UBLockdown Team Captain   *Apr 2025*
- Hosted meetings and presentations twice a week leading up to the competition.
- Maintained uptime of critical services during live attacks, while also hunting for threats and removing backdoors.
- Solved CTFs involving command injection, network steganography, and cryptography.

Team Member   *Mar 2025 - Present*
- Actively participating in weekly Capture the Flag (CTF) competitions, requiring web investigation and OSINT skills.
- Competing in the Temple University Social Engineering competition, an event requiring Phishing, Vishing, and OSINT skills.

Sigma Alpha Mu   Mar 2024 – Present
Historian and Recruitment Board   *Aug 2024 – Dec 2024*
- Organized and executed philanthropic events, resulting in our fraternity to lead the country in service hours per brother.
- Coordinated recruitment events that saw 50% higher attendance over the previous semester.
- Managed multiple social media accounts to a following of over 800 users and increased user engagement by 50%.
- Conducted presentations for groups of interested candidates on a weekly basis.

Miami Marlins   June 2024 – Aug 2024
Brand Ambassador   *Miami, FL*
- Interacted with hundreds of fans daily, enhancing their gameday experience through personalized interactions.
- Planned and executed community outreach events while fostering relationships with local communities.
- Offered accessibility services to fans who required disability accommodations.

Projects

Rescue Radar | UF/IBM AI Days Hackathon | *React, Node.js, Expo, MongoDB*   Oct 2024
- Created an app that allows users to report environmental hazards and helpful resources after natural disasters.
- Built IBM Watsonx's API call to utilize data from our MongoDB server to classify user reports.
- Trained Watsonx to correctly classify and group user posts with over 90% accuracy.

Awards

Temple University Social Engineering Competition – 3rd in OSINT.   Feb – Mar 2025
NCAE CyberGames – 2nd in Southeast, Voted Most Improved Team Player (Database Lead)   Mar 2025

Skills

Programming Languages: C++, Python, ARM ASM, MATLAB, SQL
Languages: English (Fluent), Spanish (Proficient)
Tools: Recon-ng, Sherlock, Nmap, BurpSuite, Wireshark, Linux, PowerShell, REST APIs, Apache, PostgreSQL. MySQL
Developer Tools: Git, GitHub, GDB, Docker
Transferable: Public Speaking, Management, Documentation, Teamwork, Event Planning and Organization
